Dumb Fixity:

Question / Issue:	Our Desire to possess objects.
Convener:	Julie Waterman
Participants:	Jr By - Eugene Nyce Mack! Sham Kiland GABRIAL GALEN RILEY from Candice

Discussion & Recommendations/Discoveries:

- objects take time to maintain
- come through intertance.
- finding a space full of objects and seeing it as a possible life - away from the contained.
- prejudice against ornaments - trivial but changed. to 'allow' objects into environment -
- object fill environment seen as normal.
- not a dumb desire for object but not allowing desire to rule.
- divide between the collectors and not collectors.
- * do we suspect the temptation of object
- what the object says about you - so they are loaded.

- collecting objects needs confidence
- anxiety to the object.
- objects have demand.
- people moving between collecting and dispersing objects.
- the collector 'holds' the objects —
- a moment when elderly people let the objects go.
- you only know what importance an object means when lost.
- man who saved his shirt as his most prized collection: amongst other collections:
- we all had a vivid image of the collection.
- consider collecting and evidencing waste and our relationship to letting it go.
